

CUYAHOGA LANDMARK

Est. 1934

440.238.3900

ON TIME. EVERY TIME www.LandmarkFuel.com

ABOUT

Started as a Co-Op in 1934 and in 1992 became a family owned company. Cuyahoga Landmark is a full service petroleum distributor bringing private fueling stations, lubricants, diesel exhaust fluid and equipment to businesses since 1934. By installing tanks with equipment at customers' properties and delivering fuel to them, we allow the customer to be more efficient with their business. Landmark Petroleum Services has become part of the driving force behind many successful companies. From big businesses to the not so big, everyone is serviced with the utmost care.

Our broad range of customers includes contractors, excavators, landscape companies, truck and auto fleets, government agencies, marinas, cemeteries, golf courses, nurseries and garden centers, farms and other fuel users that demand quality fuels at competitive prices delivered on time, every time.

Along with the Petroleum Division, we also run and maintain a trucking fleet that wholesales Ice Melt and Stone.

TABLE OF CONTENTS

Fuel	4 - 5
Tank & Monitoring Services	6 - 7
Lubricants & Equipment	8 - 9
DEF (Diesel Exhaust Fluid)	10 - 11
Marathon Gas Station	12 - 13
Propane	14
Ice Melt and Stone	15

FUEL FUEL

- Premium Ultra Low Sulfur #2 (On Road)
- Premium Dyed Ultra Low Sulfur #2 (Off Road)
- Diesel Guard SupremeTM— premium diesel fuel additive—is specially formulated for today's high performance diesel engines

Need Smaller Amount? 55-Gallon Drums of Diesel and Kerosene Available

Gasoline

- 87 Octane
- 89 Octane
- 89 Octane Non-Ethanol
- 93 Octane

Kerosene

- Clear K-1
- Dyed K-1

Home Heating Oil

Landmark Fueling US Military Vehicles

Fueling can be performed any time day or night, according to your company's schedule. Our customers do not need to pay a driver for doing anything other than driving.

- Car Dealership
- Car Rental
- Cities
- **Projects (tanks & equipment)**
- Courier Services
- FEMA & Emergency/First Response
- LTL Transport
- Large Generators
- Locomotives
- Military bases
- **School Buses**
- **United States Postal Service**
- US Government
- Waste & Recycling

Wherever fleet vehicles need to stay productive, Landmark is on the job.

In addition, our fueling service has been extremely effective in keeping emergency utility crews working during emergency outages.

Construction companies use our service to maximize productivity at remote job sites where time is money.

TANK MONITORING & FUEL MANAGEMENT SERVICES

Landmark will monitor your fuel for you, incoming and outgoing.

"24/7" Tank Monitoring

- » Never run out of fuel again!
- » No unnecessary deliveries!
- » Know your inventory levels at all times!
- » Receive e-mail or text alerts when your tank gets low!

Fuel Management Systems

Be able to account for where every gallon of your fuel is going!

- » Know who is using fuel and when they are filling.
- » Know what vehicle is being filled.
- » Customize your reports to analyze every aspect of your fuel usage.

Landmark has a **Full** Service Team dedicated to making sure that your private fueling station or tank placement is done to the **highest standards in the industry.**

Landmark's maintenance team is **certified**, whether you need a filter changed, pump calibrated or a complete system installed, we can do it ALL.

Above Ground Tanks

- ♦ Single Wall Tanks
- ♦ Flameshield® Tanks
- ♦ Fireguard® Tanks
- ♦ UL® 142 Double Wall Tanks
- ♦ UL® 142 Double Wall Skid Tanks
- ♦ Dike Tanks
- ♦ Workbench Tanks

DEF - ACCESSORIES

HANDLING GUIDE

Diesel Exhaust Fluid (DEF) is a colorless, non-hazardous, and non-flammable chemical. If DEF comes into contact with skin it can simply be washed off with water. DEF is sensitive to chemical impurities and it is essential that it is handled carefully to prevent contamination. DEF is much more likely to be damaged by the materials it touches than to cause damage to equipment.

If DEF is contaminated it may cause the SCR system to malfunction. This means pumps and containers used for DEF must not be used for any other fluids. It is important that tanks, pumps, hoses and nozzles previously used for other products like diesel or lube oil are not used for DEF. The requirements for handling DEF are unique.

The shelf life of DEF is two years if the fluid temperature remains between 12°F (-10°C) and 86°F (30°C). Where DEF is stored outside in bulk tanks or totes then heating and cooling solutions are available to ensure it is kept within the correct temperature range. Cooling is usually achieved by insulation and ventilation. Air conditioning is not required.

The third part of the ISO 2224 standard gives recommendations and requirements for handling, transportation and storing DEF.

Certain stainless steels and various plastic materials are suitable for storing DEF. Carbon steels, copper, copper-containing alloys and zinc-coated steels should not be used. Contact Landmark for a more comprehensive list of equipment and materials that are recommended and not recommended.

How much Diesel Exhaust Fluid (DEF) will my truck consume?

Diesel Exhaust Fluid (DEF) consumption is measured as a ratio of diesel fuel use, normally termed the "dosing rate" or "treat rate". Medium- and heavy-duty vehicles have a dosing rate of 2-3%. This means that if your truck has a fuel efficiency of six miles per gallon and a dosing rate of 3% it will use approximately 1 gallon of DEF every 200 miles.

Tote Pumps

DEF Piusi Three25 with meter (7-9 GPM) F00101A00

120 Volt equipped with the SB325 automatic nozzle, with a built-in electronic turbine meter

PROPANE

Propane Tank Installation

We are here to help you through the process of installing a propane tank at your home or business.

We will will perform a site survey at your location to help you choose the best location to place your tank and the correct tank size.

Cylinder Exchange

Save you TIME & MONEY by coming to your facility to exchange your tanks or we can also pick up, fill and return your own tanks.

ICE MELT

Landmark stocks and ships truckloads of winter ice melt from our warehouses or direct from the mines to handle your every need.

- Rock Salt (Bagged or Bulk)
- Ice Melt Blends
- Calcium Chloride

Our fleet of trucks can deliver anywhere in Ohio

- Topsoil
- Limestone
- River Gravel
- Sand
- Leaf Humus
